Charlie went over what he thought we needed to install the gate and made a suggestion that we think our original plan to install the gate because the gate would be too heavy to be supported by one post. Paul said the gate was in use where we got the gate from for ten years using only one post and in his opinion only one post was needed. He suggested that the club purchase a 7 foot 4inch poll at the cost of \$74.50. He stated that if we wanted two posts the cost would be \$150.00.

A discussion followed and a motion to install the gate was made and seconded and it passed. A date of installation of June 10th. was agreed on. Ernie would take care of digging the holes needed. Don V. said he could get the cement mixer to mix up the concrete. Don C. stated the gate would have to have a second lock so the Air Force could enter the club field if they needed to get in.
