

Airfoiler Meeting Minutes

September 2016

The September meeting of the Coffee Airfoilers was held on September 13th, at the club field. At 6:58 pm, club president Don Cleveland called the meeting to order.

The financial report was read by club treasurer Bonny Jenkins. Bonny detailed the August spending and income, as well as year-to-date status. She also reported we have 101 paid members, up five from the August report. A motion made and approved to accept the financial report.

Old Business

Model Aviation Day. CD Don Cleveland (8-13-16) We had a great event, the club raised \$805.39. The money was donated directly to DAV National Headquarters, via the DAV & Model Aviation Day Donation Program. The TV show "Tennessee Unchartered" came to the field for Model Aviation Day. They filmed several planes and pilots, as well as their host learning to fly the club's trainer. The episode should air December 2016 or January 2017.

Giant Scale Fun Fly. CD George Schmidt. (August 19 - 22, 2016) There were 34 registered pilots, and the event raised \$1866.47 for the club. For the 2017 event, Bill Crawford will CD.

Float Fly. CDs Mike Jenkins & Ernie Miller. (9-10-16) There were 6 registered pilots. The event raised \$50 for the club. The weather was a factor, as it was a little breezy.

Drone Fun Fly. (8-27-16) CD Phil Chesser reported there were 14 registered pilots, and the event raised \$100 for the club.

New Business

Field Improvement. George Schmidt. George stated he wants to make three removable flight stations, to be in-line with our current flight stations, but beyond the fencing to the north. This is to make it easier for giant scale pilots to lane from south to north, and assist them to stay on our side of the skeet range. George stated that the stations will be installed after the October 15th Chili Fun Fly.

Heli Fun Fly. CDs Kendall McDonald, David Green & Bobby Elliott (September 16-18, 2016) David Green stated everything was in order for the event, he needs volunteers to assist.

Field Equipment. The club lost a mower in August. Sec. Paul Green opened discussion to replace that mower with a used commercial grade mower, instead of buying a direct replacement yard tractor. After discussion, George Schmidt proposed the club spend up to \$3,500.00 for a commercial grade zero-turn mower. The vote will be held on the proposal at the October 3rd meeting.

Show and Tell

Mike Jenkins reported that Tony Kummerow has a photo and story of his "FrankenCub" published in the September issue of "Model Aviation". The article appears on page 70, in "Focal Point".

With no further business, the meeting was adjourned at 7:45 pm.

Please note: the October 3rd meeting will be at the St. Barnabas Church.
